

Welcome to our Website

Masdar Arlington Energy are committed investors in clean energy and the energy transition. They have developed this website to provide residents, businesses and all other local stakeholders an opportunity to explore, and enquire about their proposed development plans for a Battery Energy Storage System (BESS) on land off Leek Road, Werrington, Stoke-on-Trent, ST9 0DQ.

Masdar Arlington Energy value your input. Their expert team is here to listen to your thoughts, address your queries, and incorporate your feedback.

Where appropriate, Masdar Arlington Energy will refine the development before submitting an application to the Local Planning Authority.

A report will be submitted alongside the planning application to outline the extent of community engagement that has taken place and a summary of the responses received.

About Masdar Arlington Energy

Masdar, one of the world's leading renewable energy companies, recently acquired Arlington Energy and shares Arlington's goal of expanding battery energy storage capacity across the UK.

Masdar has a total generating capacity is 51 GW as of 2025, offsetting 80-100 million tonnes of CO2 annually.

Masdar Arlington Energy is a developer and long-term operational trader of clean energy assets across the UK who have committed over £1 billion to battery storage projects across the UK.
